## WARNING.

perhaps their lives. The sole proprietors and makers of Simmons Liver Regulator torn that customers are often deceived by traying and taking some medicine of a you that unless the word Regulator is on but J. H. Zeilin & Co., and no medicine made by anyone else is the same. .. We alone can put it up, and we cannot be responsible, if been in the habit of using a medicine which you supposed to be Simmons Liver Regulaor, because the name was somewhat like and the package did not have the word over Regulator at all. The Regulator has been favorably known for many years, and all who use it know how necessary it is for Fever and Ague, Bilious Fever, Constipation, Headache, Dyspepsia, and all disorders arising from a Diseased Liver. We ask you to look for yourselves, and

see that Simmons Liver Regulator, which you can readily distinguish by the Red Z on wrapper, and by our name, is the only medicine called Simmons Liver Regulator. J. H. ZEILIN & CO.

It is all set now, age to the crop in Ohio county. other medicines represented as the same do but, with few exceptions, there are no on and have not been taking Simmons much tobacco as they have in former carious. years and, owing to the dry weather, it has been very slow in getting a start." The old crop has nearly all been sold.

> SCOTT COUNTY. Tobacco sessons have been abundant

About 1,250 acres of tobacco have been last year. There were several good sea- rule. A large majority of the reports fered from the heavy rains. The outlook | poor stand, and as presenting a ragfor a good crop in Bourbon is not en- ged, uneven appearance. Added to ouraging, but producers are expecting these unfavorable conditions is dammuch better prices for the coming eron, age from insects, and in Western Very little old tobacco is now held in Kentucky the crop has suffered from Bourbon by producers, several of the excess of moisture. Worms are abunlargest crops having been lately sold at dant. Particular mention of them is atisfactory prices.

WOODFORD COUNTY. Between 40 and 50 per cent of last | The condition of the crop July 1, as well. Now and then a good crop is seen but on the whole the prospect for tobac | The condition of the hemp, comco in this county is very discouraging. pared with average years, is 87, an OFFICE in Burnam Building, recently occupied by A. R. Burnam.

11 is estimated that nearly 1,000,000 lbs.

or more than 20 per cent of the tobacco inouth. On July 1 of last year the grown in Woodford in 1896 is still in the condition was 80. bands of the growers and local layers. OWEN COUNTY.

The low prices curtailed the acreage about 30 per cent. However, as the season of June 18 permitted the acreage prepared to be planted, the outlook is nore reseate, but many contend that unless the frosts hold off very lath and the season is a favorable one the crop will never mature. As the farmers had their ground well prepared, the stand is very encouraging and several nice showers have started the plants to growing. As condition of 83. The quality of the this county is slow to dispose of her crops, it is safe to extimate that there is fully 20 per cent of last year's tobacco in the hands of the farmers and local specula-

CLARK COUNTY The drought that had existed for sev eral weeks was broken Inna 17 and since that time the weather has been admira ble for tobacco plants. The farmers in tended to set about 75 per cent as mucl as in 1896. The long continued cry spel prevented planting, and where planter of the plants grew to large to use and others turned vellow and died, consequently, when the rains came there was annoyance of cattle and other live a scarcity of plants, and the acreage set s not more than 60 per cent of that of last year, and nearly all of that has been et since the middle of June. It takes at least 100 days, under favorable circounstances, to mature a crop of tobacco; hence the present crop will not be ready for cutting before the first of October and

an early frost would ruin nearly all of it even after it is cut and in the barn, there is danger from a freeze for several weeks. In this section there is less tobacco in the hands of growers and coun-

try dealers than ever before known.

JESSAMINE COUNTY. Careful inquiry among the tobacco growers of this county reveals the follow ing facts concerning the coming crop: To and fewer were grown than eyer known stop at the best hostelries and live on the scarcely no season at all for transplant- and sinew of Kentucky Democracy. ing until June 10, and the largest portion | They could have met for no other purof the crop has been put out since then, What was set out previous to that time was done mostly by machine. The plants erably well, but are looking bad. The when the traction engine is abroad in highest estimate put on the crop put out the land, the following extract from the power that rules Europe and America his year is not exceeding 60 per cent of Kentucky lays may be timely: "Any coson will not make the crop put out tion or portable engine on or along puts Bynum up to eat his own free silthis year more than 50 per cent of last any highway or private passway or year. Very little of last year's crop is on lane in this State, shall send, and
